Our World

Look at the world globe and think about the things that are going on around our world. Christians believe that it is important to care for our world and the people in it.

Think about any family or friends you may know in another part of the world.

Think about different situations around the world that you've heard about, maybe on the news, where people need help.

If you would like to, write a prayer or thought for someone you know or about something that is happening in the world onto a post-it note and stick it onto the globe.
