The American space program is run from a place call Houston. When the spaceship Apollo had trouble, they called Houston and said 'Houston, we've had a problem'.

Who do you talk to when you have problems? Christians can talk to different people about their problems, but they also talk to God about them.

**If you would like to, think about something you are worried about, or a problem that you have. Ask for help by writing a thought or a prayer on a black piece of card and posting it in the rocket.**
