Friendship Flower

What makes a good friend?
Who supports you and looks after you?
Do you know of someone that needs your help?

Friendships work best when people look out for each other, celebrating the happy times together and helping each other when things are hard. Christians believe that God is their friend, always there to listen and help them.

If you would like to, on a petal write the first name of a friend or someone you are thankful for, and then write or draw a short thank you prayer or thought for them. Then add it to the Friendship Flower when you're ready. Look at all the special friends that we have!
